

As a part of Port Saint John's dedication to continually improve the safe and efficient operation of Saint John harbour, we have issued a revision to Port Practices and Procedures.

All operations within the Port must be conducted in accordance with these practices and procedures, which are to be considered as conditions of entry into and operation within the Port. Stakeholders are encouraged to review Port Practices and Procedures in its entirety, however below is a list of the most notable revisions.

Notable Changes:

- 4.3 – Tanker Operations
- 4.4 – Use of Tugs
- 5.2 – Designated Anchor Positions
- 6.9 – Overboard Discharges
- 6.10 – Ship-to-Ship Transfers (lightering)
- 6.12 – Diving and/or Waterborne Inspections
- 6.16 – Gillnet Fishing
- 7.1 – Recreational Vessels
- 7.2 – Small Commercial Vessels
- 9.1 – Incidents
- 9.2 – Reporting/Contact List
